

# RISK ANALYSIS AND MANAGEMENT SYSTEM

**NAME:**

**DATE:**

**ACTIVITY / SITUATION: Agroventures-BUNGY**

<b>UNDESIRE EVENT (S)</b>	People walking into the bungy operation danger zone People slipping on wet surfaces Not following instructions or reading signs around the activity area Not informing staff of recent injuries or current health situation Machinery failure Power cuts		
<b>CASUAL FACTORS</b>	<b>PEOPLE</b>	<b>EQUIPMENT</b>	<b>ENVIRONMENT</b>
	Not following verbal and written instructions.	Machinery failure by means of either power cut or machinery malfunction.	Extreme winds causing damage to the native surrounds. Flooding which does not allow the participant to get to our place of operation.
<b>RISK MANAGEMENT STRATEGIES</b>	<b>NORMAL OPERATION</b>	Ensure that people understand written and verbal instructions. We demonstrate if they do not understand the instructions they have been given.  Safety checks are done daily so this problem does not occur. (IE refer to health and safety manual). We follow the NZ Code of practice of Bungy Jumping.	If the participant's safety is at risk the operation is closed until the surrounding environment enables us to work safely.
	<b>EMERGENCY</b>	We have trained first-aid staff We have emergency procedures that are implemented and practiced monthly We have direct access to all the emergency services. (IE refer to health and safety manual)
